A member's net business income is determined by removing all but business income, expense, and loss from that member's total income, as provided in this section and § 47-1810.05.

(G) Net operating loss carryover.

(2) If the taxable income computed pursuant to this section and § 47-1810.05, results in a loss for a taxpayer member of the combined group, that taxpayer member has a District net operating loss, subject to the net operating loss limitations and carryover provisions of this chapter. The District net operating loss shall be applied as a deduction in a prior or
subsequent year only if that taxpayer has District source positive net income, whether or not the taxpayer is or was a member of a combined reporting group in the prior or subsequent year.

“(3) Except where otherwise provided, no tax credit or post-apportionment deduction earned by one member of the group, but not fully used by or allowed to that member, may be used, in whole or in part, by another member of the group or applied, in whole or in part, against the total income of the combined group. “§ 47-1810.05. Determination of the business income of the combined group.

“(a) The business income of a combined group is determined as follows:

“(B) If the member is not required to file with the Securities and Exchange Commission, the Mayor may allow the use of the consolidated profit and loss statement prepared for reporting to shareholders and subject to review by an independent auditor.
